

## DUŠAN CVETKOVIĆ, BELGRADE, 1ST GRADE

---

Dušan Cvetković Cvele

Dusan is one of the 39 scholarship students supported by Ana and Vlade Divac Foundation for school year 2017-2018. Dusan's family has escaped from Croatia during the war.

Dusan Cvetkovic lives with his father, mother and younger sister. His parents are unemployed, but they usually work on temporary jobs.

Dusan is an excellent first-year student of the Academy of the Air Force, where students from all over Serbia are studying. He would like to help his parents and sister when he finishes the school.

He likes to do what makes him happy, and that is the reason he helps others. This includes, first and foremost, helping friends.

"It is necessary to find something in life that can fill us with happiness and satisfaction. My way of accomplishing this is by helping others," writes Cvele.

After the New Year holidays, he and his school friends came to the idea of helping children from a Belgrade orphanage. Namely, they donate money for gifts and wanted to surprise the children.

He uses his scholarship to improve his English knowledge, go to the theater, or purchase school supplies and clothing items.

As a part of the scholarship support, Dusan has got a laptop which will make his studying a lot easier, but as well contribute to quality leisure time and access to other forms of informal education.
