

Lazar Trajković from Vranje

“Dear Divac Team, I would like to thank you for the support I received during the two years I was a Foundation scholarship recipient. From the very beginning, it was a great honor for me to be among the scholarship recipients of the Ana and Vlade Divac Foundation, and I always took the opportunity to tell people around me how much your support meant to me.

My twin brother Luka and I graduated from the ‘Dr Isabel Emslie Hutton’ Medical High School as the top students of our class. We received recognitions from our school, the City, and His Royal Highness Crown Prince Alexander. We both enrolled at the Faculty of Medicine in Niš among the highest-ranked applicants. I share first place with two other students, with 99 out of 100 points, while Luka is just behind me with 96 points.

Thank you once again. You were an important part of a very significant period in Luka’s and my life, and we will always be grateful for that. As future doctors, we will strive to help others as well and to make compassion and kindness some of the most important values in our lives.

Warm regards,

Lazar and Luka“
